Vaccinations would begin for children aged above 15 years of age.

The partnership, which consists of more than 4,500 members, works to give women and girls an equal status to men and boys so that they can achieve their full potential.

India expanded its Covid-19 vaccine campaign to include everyone above 18 years old and administer booster jabs to frontline workers and some at-risk citizens. The motive behind this move was to give 3.5 million vaccine doses to 400,000 frontline workers around 60 years with comorbidities, and 50,000 citizens above 18 years from January 3. The jabs will be distributed in 700 centres across the country.
