Over 70 healthcare professionals complete MoPH’s 2nd Clinical Health Coach training program

The Ministry of Public Health (MoPH) completed its second Clinical Health Coach training programme. Over 70 healthcare professionals attended the training, which is one of the latest treatment centres in the Middle East producing innovative medicine, recycling, and working to recycle waste.

He stressed that the state’s interest in stabilising an abundant public factories dedicated to producing waste recycling, or recycling waste itself, is an advanced level of community awareness of the importance of societal awareness of the issue of recycling, and thus the need for everyone to work to recycle waste.

Minister launches national campaign

Minister of Municipality launches Zero Waste national campaign

The Minister of Municipality, HE Faleh bin Nasser bin Ahmed bin Ki Al Subaie, has launched the Zero Waste campaign on Thursday.

The launch of this national campaign comes within the context of the Ministry of Municipality’s work to improve municipal services, waste management, which helps mitigate its effects on the health of the community, and improving the quality of life, in order to achieve the objectives of Qatar National Vision 2030. It aims at raising the awareness of the importance of the issue of waste recycling, or recycling waste itself, to work to recycle waste. He explained that in this context, the Ministry of Municipality is implementing many programmes, initiatives and events, to deal with all types of waste, sorts it, generate electricity power and produce agricultural fertiliser, as the basis for an important role in environmental and recycling industries, pointing out that the number of factories that have been allocated to land in Al Aza area reached its maximum, carrying out many activities, including recycling waste, metal, medical waste, electronics and fertilizers, construction waste, wood, oil, plastic, batteries, paper, aluminu...
