Resolution Day to celebrate with zeal, fervour and national spirit

On the auspicious occasion of Pakistan Day, I wish to extend my heartfelt felicitations to our Pakistani brothers and sisters and the people of Pakistan residing in the State of Qatar.

Eighty years ago, on this auspicious day in 1940, the Muslims of the subcontinent under the dynamic leadership of Quaid-e-Azam Mohammad Ali Jinnah passed a resolution in the historic city of Lahore, which ultimately led to the establishment of Pakistan, enabling the Muslims of the subcontinent to live with freedom in accordance with their religious ethos, cultural norms and aspirations. It is in that spirit that all Pakistanis celebrate the day with zeal, fervour and national spirit.

The path to independence was not easy. It was a difficult struggle with countless sacrifices under the visionary and inspiring leadership of the Father of the Nation who brought Muslims together under one flag. This day is to remember the unshakable sacrifices for the independence by our forefathers. While celebrating the Pakistan Day today, we should not forget those who laid down their lives in the defence of the homeland.

Pakistan has made enormous strides in all sectors. Pakistan today is a multi-cultural, independent judiciary, strong parliament and robust civil society which play a vital and constructive role under the dynamic leadership of Prime Minister Imran Khan.

Pakistan is witnessing rapid economic development and the social policies of the present government. The country has passed through the difficult economic situation and the future, Insallah, seems bright. Due to continuous improvement in business regulations, Pakistan climbed 38 places and rose to the rank of 41 in the global ease of doing business rankings in 2019, and has become a favourable investment destination with high returns.

Pakistan believes in regional connectivity and economic integration. The China-Pakistan Economic Corridor (CPEC) is manifestation of this strategy and is already proving to be a game changer not only for Pakistan but also for the entire region by connecting China, Pakistan and other Central Asian and South Asian countries with the Middle East and Europe. It is a project based on shared goals and aspirations consisting of a unique model of economic development and international cooperation. It involves several infrastructures and power generation schemes to link north-western China with Arabian sea.

I would also like to pay tribute to the Pakistan community in Qatar who are contributing and living their lives for the same country. Apart from proudly contributing to the development of Qatar, they have been playing a positive role in strengthening the economy of Pakistan.

Even since my assumption of office as Ambassador of Pakistan to Qatar one year ago, I have been privileged to witness unprecedent development and success of our brotherly country under the sagacious leadership of the Amir His Highness Sheikh Tamim bin Hamad al Thani. We are indeed grateful to HH the Amir for looking after our community and providing them with excellent employment opportunities. It is our hope that thankfully greater numbers of Pakistanis would participate in the further progress and prosperity of Qatar in the coming years.

Unfortunately, the economic and trade figures in the past were not commensurate with political relations. I am happy that the trade and investment relations have grown enormously during the last one and half year.

I would once again like to sincerely thank the Amir His Highness Sheikh Tamim bin Hamad Al Thani, the Father of the Nation who brought Muslims together under one flag, HH the Amir's visit to Pakistan and HH the Amir’s visit to Qatar.

Prime Minister and Minister of Defence His Excellency Sheikh Khalid bin Khalfan Al Kneeibi, Prime Minister and Minister of Interior His Excellency Dr. Khalid bin Khalifa bin Abdulaziz Al Attiyah and the Prime Minister and Minister of State for Defence Affairs His Excellency Dr. Khalid bin Mohammed Al Attiyah, and the government and people of Qatar for their guidance, cooperation and support that we at the Embassy of Pakistan have received from them.

Long live Pakistan-Qatar friendship!

REFERENCE: On this occasion, I would also like to make a special mention of the officers and soldiers of the Pakistan Armed Forces who have laid down their lives in the defence of the homeland.

Pakistan and Qatar: An Everlasting Bond of Brotherhood

Pakistan and Qatar enjoy fruitful and cooperative relations, deeply rooted in common faith, heritage and shared values. They share similar views on various regional and international issues and cooperate at multilateral forums, especially at the UN and the OIC. The biggest influence has been the presence of nearly 10,000 strong Pakistani community working in various spheres of Qatar and who were an important part of the progress of Qatar.

There has been an increased warming up of our relations with Qatar. In the official welcoming ceremony at the Prime Minister's House, Prime Minister of Pakistan Imran Khan at the guard of honour ceremony was received by the Prime Minister of Qatar R.H.H. Sheikh Tamim bin Hamad Al-Thani. During the visit, he held meetings with the Amir as well as the Prime Minister of Qatar. The Prime Minister, during his interaction with renowned Qatar businesswomen and professionals, invited them to avail themselves of the conducive trade and investment opportunities in Pakistan.

Prime Minister Imran Khan's visit was reciprocated by the historic visit of the Amir H.H. Sheikh Tamim bin Hamad Al-Thani to Pakistan on 22-23 June 2019. His Highness the Amir was welcomed by Prime Minister of Pakistan in Islamabad, where the visiting dignitary was given a 121-servants guard of honour. He also returned by flight of JF-17 Thunder His Highness the Amir was also welcomed with Pakistan's highest civil award 'Nishan-e-Pakistan' by President of Pakistan Dr. Arif Alvi.

Prime Minister Imran Khan and H.H. Sheikh Tamim bin Hamad Al-Thani held one-on-one meeting, followed by delegation-level talks. The talks were marked by emotional warmth and cordiality. All aspects of bilateral relations came under review. The two leaders reaffirmed the importance of Pakistan-Qatar fraternal ties and reiterated the resolve to forge a robust political and economic partnership.

Among other things, it was agreed to take steps to significantly increase bilateral trade; expand collaborations in the agriculture and food sectors; enhance cooperation in the energy sector, including in the LNG and LPG fields and exploration and production of oil and gas; promote Qatar's investments in energy, tourism and hospitality industries; increase the number of Pakistani workers employed in Qatar; and expand cooperation in the fields of aviation, maritime affairs, higher education, defence and defence production. The two sides also exchanged views on the regional situation and efforts to facilitate the Afghan peace process.

During the visit, Pakistan and Qatar signed the following MoUs:

- Memorandum of Understanding on the Establishment of Pakistan and Qatar Joint Working Group (JWG) on Trade and Investment.

Moreover, Prime Minister Imran Khan stopped over at Doha on 24 July 2019 while returning from the US. He was welcomed by Prime Minister of Qatar HE Sheikh Abdullah bin Nasser bin Khalid Al-Thani. The two sides reaffirmed the resolve to comprehensively upgrade bilateral relations in all fields including trade, investment, energy, aviation, agricultural, tourism, manpower and people to people contacts. The positive contribution of the Pakistani community in Qatar was also lauded.

Prime Minister Imran Khan paid an official visit to Qatar on 27 February 2020. During this visit, Prime Minister of Qatar HH Sheikh Tamim bin Hamad Al-Thani. The focus of discussions was strengthening bilateral cooperation and exchanging views on regional developments including the Afghanistan peace agreement, in which Qatar played a crucial role.

Besides this, multiple reciprocal ministerial visits also took place over the last one year. These high-level exchanges of visits have further solidified our bilateral relations with Qatar and have opened new vistas of cooperation. The leadership level interactions of both sides reflect the commitment of both sides to enhance the multifaceted relations between Pakistan and Qatar including trade, investment, energy, aviation, tourism, manpower and people to people contacts.
We extend our heartfelt congratulations and felicitations to the Government and People of Pakistan on the auspicious occasion of

23rd March

**5th Session of Pakistan-Qatar Joint Commission**

The 5th Session of Pakistan-Qatar Joint Commission was held in Doha on 25 November 2019. It was chaired by Omar Ayub Khan, Federal Minister for Energy (Petroleum Division) of the Islamic Republic of Pakistan and HE Al-Bun Ahmed Al-Kuwaisi, Minister of Commerce and Industry of the State of Qatar. The co-chairs also held a bilateral meeting on the sidelines of the Joint Commission.

**Special Assistant to the Prime Minister on Overseas Pakistanis and Human Resource Development, Sayed Zulfikar Bukhari, visits Qatar**

Sayed Zulfikar Bukhari visited Qatar on 29-30 November 2019. During the visit, he called on the Deputy Prime Minister and Minister for Foreign Affairs Ali bin Abdullah Al-Thani, Minister of Administrative Development, Labour and Social Affairs of the State of Qatar His Excellency Yousuf Mohamed Al-Othman Fakhroo, Sheikh Faisal bin Thani Al-Thani, Head of Regional Portfolio Qatar Investment Authority and Saleh Al Bakeer, CEO Qatar Airways. During the visit, the SAPM attended the inaugural session of Overseas Employment Promotions Conference. He also co-chaired the 4th meeting of the Joint Committee on Labour and Social Affairs of the State of Qatar.

**Special Assistant to the Prime Minister on Overseas Pakistanis and Human Resource Development (OP&HRD), Sayed Zulfikar Bukhari visited Qatar called on Minister of Administrative Development, Labour and Social Affairs of the State of Qatar His Excellency Yousuf Mohamed Al-Othman Fakhroo.**

Sayed Zulfikar Bukhari visited Qatar to explore the initiative of skilled Pakistani workers in the labour force of Qatar. He hoped that the two sides would actively engage with each other to enhance Pakistani workers in Qatar. The SAPM also requested the Qatari Labour Minister to establish trade unions in Pakistan and Labor.

**The Special Assistant also visited Asian Town Labor Camp in the Industrial area. He was briefed on the facilities provided to the workers, especially the medical, lodging, dining and recreational facilities. He also met a group of Pakistani workers staying in the camp. He listened to their issues and assured them of all possible help from the government and not particularly from the Ministry of Overseas Pakistanis.**

**Pak Bazm-e-Ahbab strives to promote positive image of Pakistan**

Pak Bazm-e-Ahbab is a well-known socio-cultural organization of Pakistanis working in different countries in the Kingdom of Saudi Arabia (KSA). The forum is at the forefront of promoting the positive image of Pakistan. It organizes events and activities that help Pakistani workers stay connected with their roots.

**Heartiest congratulations to the Government and People of the Islamic Republic of Pakistan on the Occasion of Pakistan Resolution Day**

**Pak Bazm-e-Ahbab**

**Messaeed - Qatar**

**March 23rd**

**IBLAQ and AIMAL Rouasian (Finance Secretary), Taqir Taqir (Cultural Secretary) and Syed Western Shah (Programme Coordinator).**

**Pak Bazm-e-Ahbab organizes different events for students and families. The forum also organizes family get-togethers, and cultural and musical shows.**

**The forum has recently instituted annual community awards which will be given to three personalities in recognition of their services to the community or excellence in their profession.**

**MONDAY, 23 MARCH, 2020**

**Special Assistant to the Prime Minister on Overseas Pakistanis and Human Resource Development (OP&HRD), Sayed Zulfikar Bukhari visited Qatar called on Minister of Administrative Development, Labour and Social Affairs of the State of Qatar His Excellency Yousuf Mohamed Al-Othman Fakhroo.**
Pakistan Foreign Minister Shah Mehmood Qureshi visits Qatar

FOREIGN Minister of Pakistan Makhdoom Shah Mehmood Qureshi visited Qatar on February 27-29, 2020. During his visit, Shah Mehmood Qureshi inaugurated the new building of the Embassy of Pakistan in the Diplomatic Enclave.

The Foreign Minister also addressed a gathering of a cross section of Pakistani community members at the Embassy Hall. Speaking on the occasion, the Foreign Minister appreciated Pakistani community in Qatar for their positive contribution in the well-being of Qatar as well as strengthening bilateral relations between Pakistan and Qatar. He also visited the Al Jazeera Headquarters where he was briefed about the genesis, evolution and policy of Al Jazeera.

Heartiest felicitation to the Pakistani community in Qatar on the auspicious occasion of Pakistan Day

(Supporting the Pakistan Vision 2025 and Qatar Vision 2030. Putting People in mind and Youth as First.)

Celebrating A Day of Commitment
Pakistan gets serious about its tourism pitch

On the occasion of World Tourism Day, Pakistan’s Prime Minister Imran Khan hinted at promising figures for both tourists and investors.

On 5 November, Imran Khan announced the setting up of 100 ‘eco-tourism’ zones in the country to attract foreign investment. He also announced the development of 100 more tourist sites.

Pakistan has just been ranked as one of the most prominent countries in the world on the list of tourism investment destinations. This claim has been achieved with a combined 100% score, showing exceptional potential for growth. Pakistan’s tourism potential has soared to an impressive level, ranking it as one of the top destinations for foreign investors.

The tourism industry in Pakistan has been gaining momentum since the government introduced various policies to attract foreign investment. The Foreign Investment Promotion Act of 2016 opened up Pakistan’s tourism sector to foreign investors, providing them with a stable business environment.

The government has taken several initiatives to develop Pakistan’s tourism sector. In 2019, Pakistan's tourism sector received the highest-ever foreign investment of $2.6 billion, surpassing the previous record of $2.4 billion in 2018.

Moreover, Pakistan’s tourism policies have been praised by various international organizations. The World Tourism Organization (UNWTO) and the World Travel and Tourism Council (WTTC) have both recognized Pakistan’s efforts to develop its tourism sector.

However, Pakistan still faces several challenges in the tourism industry, including inadequate infrastructure, limited connectivity, and security concerns. To address these challenges, the government has introduced several initiatives, such as the establishment of ‘eco-tourism’ zones.

In conclusion, Pakistan’s tourism potential has been widely recognized, and the government is working hard to attract foreign investment. However, continued efforts are needed to overcome the challenges faced by the tourism sector.

Basma Ali
Trade & Investment Attaché

Pakistan’s tourism potential has been widely recognized, and the government is working hard to attract foreign investment. However, continued efforts are needed to overcome the challenges faced by the tourism sector.

Pakistan’s tourism potential has been widely recognized, and the government is working hard to attract foreign investment. However, continued efforts are needed to overcome the challenges faced by the tourism sector.

Pakistan’s tourism potential has been widely recognized, and the government is working hard to attract foreign investment. However, continued efforts are needed to overcome the challenges faced by the tourism sector.
The world today needs creative thinkers, problem solvers, effective communicators, decision makers. We need responsible global citizens who can lead us into the future. Is our current education system preparing the students to meet these challenges? We believe in equipping our students with the 21st century-skills. These are important competencies that educators across the world are currently debating over to find plausible solutions.

These are the premises and premise of 21st century skills in creating effective future leaders in the world. Now and as future leaders, students were encouraged to explore what motivates them and how they wish to make their world a better place. They learned about the problems that our world is currently facing and tried to find answers to their questions.

Students looked at themes such as artificial intelligence and its role in the future, sustainable Farming in Qatar, inventions of the future, and many more. While exploring the theme of their projects on campus, students could become drivers of new solutions to problems that the global community faces. Students were challenged to design a project that addressed one of these problems, but within the scope of their campus. Now that they have designed and implemented their projects on campus, students will be given an opportunity to pitch their project designs to the #SchoolsWorldSDGs global campaign. A unique platform which will allow our student body to share their journey and learnings with the global community.

The second framework, ‘Little People, Big Dreams’ was designed to urge students in year three to year six to think about the part that they can play in this world – now and as future leaders. The third framework was to engage the student body to transform their school into a hub of learning and engagement for the SDGs, so that students could become drivers of new solutions to problems that the global community faces. Students were challenged to design a project that addressed one of these problems, but within the scope of their campus. Now that they have designed and implemented their projects on campus, students will be given an opportunity to pitch their project designs to the #SchoolsWorldSDGs global campaign. A unique platform which will allow our student body to share their journey and learnings with the global community.
Keeping the main objective of the Supreme, PAC Kamra kept on growing and expanding in the capabilities, scope and outreach and has established itself not only as an aviation hub but also as a center of excellence in aviation related technologies

PAC Kamra Aeronautical Complex Kamra was established in the wake of the need to arm the air force aircraft with modern avionics and electronic equipment and to meet the increasing demand of the aviation industry. The complex constitutes four different factories and is a member of modern Research and Design Institutes.

Existing Core Capabilities & Achievements:

PAC is equipped with aircraft, sub-assemblies and advanced components manufacturing and MRO services encompassing products ranging from primary flight control systems to aircraft engines. The factory has enough capacity to manufacture many different types of aircraft engines for the nation’s air force aircraft and commercial jetliners such as the C-130 and F-16. The factory has also undertaken manufacturing of aircraft parts for various industries.

Aircraft Overhaul:

Over the years, Mirage Rebuild Factory has been producing more than 300 airframes which are flying worldwide. Super Mushshak is now equipped with state of the art Glass Cockpit Avionics Suite, which makes it an attractive aircraft for training of pilots across the globe. PAC Kamra has been undertaking the fine-tuning of the finest products of JF-17 Thunder aircraft, which will form a major part of the Super Mushshak fleet.

Manufacturing Capabilities:

AMF is equipped with state-of-the-art facilities like machining center for aircraft parts manufacturing and high-precision technologies such as CNC, CAD, CAM. Sheet metal workshops of PAC Kamra houses an array of conventional and CNC machining set-up. Machines such as Guilloin and Shaping machine are also being operated by the factory.

Mirage Refurbish Factory:

Over the decades, Mirage Refurbish Factory has evolved into a center of excellence for modernization, refurbishment and overhaul of aircraft and aviation systems. With its vast experience in aircraft and aerospace, engine group of AMF undertakes extensive repairs in order to achieve the production targets.

Engine Group:

With a diverse range of technical and products, expertise and services in modern aviation systems and aircraft, PAC Kamra is a major contributor to Pakistan’s aviation industry and avionics of the world.
Over the decades, PAC Kamra has established its presence globally both in products and services, PAC has continuously harnessing future-oriented technologies and core competencies, further strengthening its stature in global aviation market through its four factories and a modern research and development facilities both at the National and International level. Using this approach, AvRID is working to progressively develop technologies for next generation manned, unmanned aerial systems, sensors and weapon systems.

Another core competency developed by APF is the full mission simulator (FMS) that leverages existing design and development facilities both at the National and International level. A number of projects have been developed by AvRID to a variety of tactical and operational requirements for various kinds of aircraft and development of Unmanned Aerial System (MALE) UAV.

Overview of a few of these projects is covered in subsequent paragraphs.

Design and Development of Medium Altitude Long Endurance (MALE) UAV.

To meet the operational requirement of Pakistan Air Force, AvRID has embarked on this design and development of Unmanned Aerial System (UAS) of MALE category.

Design and Development of High-Speed Target Drone (HSTD)

The project aims to develop a catapult-launched drone intended to provide economical training & evaluation for air defense weapons.

Fifth Generation Pakistani fighter aircraft

PAC has also embarked upon the long-term and of developing our own fifth generation fighter aircraft (FGFA). Development of FGFA is envisaged to be a national program that would entail large-scale development and energetic efforts from a number of industrial (public & private) and academic organizations. These efforts would enable development of technologies that will find applications in a number of other systems as well.

Conclusion

Over the decades, PAC Kamra has grown and expanded in the global aviation market and established itself as a hub of aviation technology. Today, having established its presence globally both in products and services, PAC is continuously harnessing future-oriented technologies and core competencies, further strengthening its stature in global aviation market through its four factories and a modern research and development facilities both at the National and International level. Using this approach, AvRID is working to progressively develop technologies for next generation manned, unmanned aerial systems, sensors and weapon systems.
A GREAT BLESSING FOR PAKISTAN CRICKET

Pakistan Association Qatar (PAQ) is a non- profit, cultural, literary, educational, and multidimensional organization working with a network of relationships with Pakistani expatriates and various international communities around the world.

PAQ is a platform for experienced artists to share knowledge and talent among other artists as well as to train Pakistani youth and students.

PAQ has no religious affiliations or sectarian interests. The forum is working on the construction of a new library and the enhancement of the mobile library services. It is also working on collaboration with Qatar National Library, Qatar Museums, Qatar University, and Qatar Academy for Education, Sports and Culture. The forum organizes a number of symposiums, panel discussions, and workshops on various topics.

PAQ’s objectives include Pakistan Passionate Youth Development, Expanding to Global Village, Education, Learning and Development, Empowering Women, and Girls. Its programs focus on children’s education, health, and social and economic development.

PAQ’s offices are located in Doha, Qatar, and it is open to all Pakistanis, regardless of age or background. The organization is committed to promoting Pakistan’s culture and values around the world.

PAQ works with youth talent and promotes cultural exchange between Pakistan and Qatar.
There are numerous Buddhist arti-
facts and wonders in the area after
Pakistan is one of those coun-
tries with several places belonging
to every major religion: Almost all
peoples of Pakistan have its own
artifacts of Jainism.

There is no place in the world as
beautiful and safe as Pakistani
civilization is thousands of
years old. Sometimes, it’s felt that
this land is made for tourism. The
three highest peaks in the
world pass through Pakistan. It has
the beauty of the deserts.
Our country also has an
abundance of ancient and historical
places. Each place has a story
to tell. In the ancient cities of Paki-
stan, millennium-old culture exists in
the form of ancient and historical
places, mouthwatering
flavors of all kinds. There
are fruits of all kinds, countless
languages, different cultures and
different ways of thinking at the
same time. If you sit down to write
on one aspect, then many beauti-
ful books can be written.

Apart from Kaghan, Narum Lo-
loser Lakes, Koharwari Top, Lake
Safe Almulk, Shankar’s, Kalam,
Rahim and Bhoog, the Swat val-
dley is very scenic. Yes, Skardu
lovers have there own tale. People
from Skardu are known for their
extraordinary skills. Chortals are charmed for years as the
country has a special tourism destina-
tions every year.

Pakistan has not a small city that
doesn’t have a special feature. The
beauty of Pakistan includes four sea-

The mountain peaks here are not only often hidden by clouds but are also usually shrouded in mystery. Some of the mystery arises from the fact that one is addressing the difficulties of ascending great heights. Few people venture to the top and in legend and superstition the peaks become the throne room of the goods and bad alike over 35 and 33 north latitude and lying is a monolithic rage. Sprawling near with several spurs. Only the central part consists of a group of parallel ranges Afghanistan in a south eastern direction. 300 miles from the eastern most part of western Himalays, stretch for nearly mountains'', lying to the north of the high mountain peak has a mystery about it, which cannot be defined by human feet. Part of the mystery is in the unknown, which lies beyond the mountains: it might be waterless, treeless, burning desert or a sea of ice. A high mountain peak viewed from a distance may appear easily approachable but when the explorer goes towards it, he discovers that it is far more distant than he thought and lies across ridges and valleys that are concealed from view and in this sense every peak viewed from a distance may appear desolate or a sea of ice. A high mountain may be waterless, tree-less, burning sand, a desert or sea of ice. A high mountain peak might be the throne room of the gods and in legend and superstition the peaks become the throne room of the gods, usually shrouded in mystery. Some of the peaks also from the boundary between China and the Northern Areas of Gilgit and Baltistan controlled by Pakistan.

**BEAUTIFUL KARAKORAM**

The Karakorams serve as the water shed between the two river basins of the Indus and the Tarim, the India, after an initial westward direction, flowing south and the Khotan tributary of the Tarim flowing north to join the Tarim. These mountains also from the boundary between China and the Northern Areas of Gilgit and Baltistan controlled by Pakistan.

**BROAD PEAK**

Broad peak is the 12th highest mountain in the world at 8,035 meters above sea level. It is the eighth highest mountain in the world at 8,126 meters above sea level. It is located in the Gilgit-Baltistan region of northern Pakistan. Broad peak is part of the Gasherbrum massif, located in the Karakoram region of the Himalayas. Gasherbrum is often claimed to mean “Shining Wall”, presumably a reference to the highly visible face of the neighboring peak Gasherbrum IV, but in fact it comes from the Balti word, “gha-” meaning “peak” + “brum” (mountain) in Balti, hence it actually means “mountain peak”. Gasherbrum-I was first climbed on July 5, 1958 by Pete Schoening and Andy Mann Buhl. The first ascent of Broad Peak was made on between June 8 and 9, 1957 by Fritz Wintersteller, Marcus Schmuck, Kurt Diemberger and Horstmann Bulih of an Austrian expedition led by Marcus Schmuck. First attempt by the team was made on May 19 where Fritz Wintersteller and Kurt Diemberger reached the forepeak (8,135 m). This was also accomplished without the aid of supplemental oxygen, high-altitude porters nor base camp support.

**GASHERBRUM-I**

Gasherbrum-I is part of the Gasherbrum massif, located in the Karakoram region of the Himalayas. Gasherbrum is often claimed to mean “Shining Wall”, presumably a reference to the highly visible face of the neighboring peak Gasherbrum IV, but in fact it comes from the Balti word, “gha-” meaning “peak” + “brum” (mountain) in Balti, hence it actually means “mountain peak”. Gasherbrum-I was first climbed on July 5, 1958 by Pete Schoening and Andy Mann Buhl. The first ascent of Broad Peak was made on between June 8 and 9, 1957 by Fritz Wintersteller, Marcus Schmuck, Kurt Diemberger and Horstmann Bulih of an Austrian expedition led by Marcus Schmuck. First attempt by the team was made on May 19 where Fritz Wintersteller and Kurt Diemberger reached the forepeak (8,135 m). This was also accomplished without the aid of supplemental oxygen, high-altitude porters nor base camp support.

**K2**

K2, also known as Mount Godwin-Austen or Chogori is the second highest mountain in the world, after Mount Everest, at 8,611 meters above sea level. It is located on the China-Pakistan border between Baltistan, in the Gilgit-Baltistan region of northern Pakistan.

**UNNAI PARBAT**

Unnai Parbat literally, Naked Mountain is the ninth highest mountain in the world at 8,525 meters (28,060 ft) above sea level. It is the western anchor of the Himalayas around which the Indus river skirts into the plains of Pakistan. It is located in the Gilgit-Baltistan region of northern Pakistan and is locally known as Deo Mir. ‘Mir’ meaning huge/mighty mir meaning ‘mountain’. Unnai Parbat is one of the eight-thousanders, peak with a summit elevation of 8,126 meters (26,660 ft). It is an immense, dramatic peak rising far above its surrounding terrain. Nanga Parbat forms the western anchor of the Himalayan range and is the westernmost eight-thousander. It lies just south of the India River in the Danner District of Gilgit-Baltistan in Pakistan. Not far to the north is the western end of the Karakoram range.

Steps taken by the present government for promoting tourism in Pakistan. Effective branding, building the country’s soft image and strong provi- ncial coordination are vital to flourish the tourism industry. Keeping in view, the present government recently consti- tuted National Tourism Coordination Board (NTCB) with an aim to promote the ghlaristic image of country across the globe and synchronize all the regional tourism departments since the tour- ism was a provincial subject after 18th amendment.

The basic component of NTCB’s strat- egy is to facilitate and attract the foreign tourists. NTCB would also work out var- ious initiatives to create tourist-friendly environment in the country and ensure provision of quality services to the travel- ers and tourists. The Law Enforcement Agencies would also be taken on board to provide the tourists legal and security保障. The NTCB would also work on the provision of quality services to the travel- ers and tourists. The Law Enforcement Agencies would also be taken on board to provide the tourists legal and security.
The Al Qaim Restaurant was inaugurated in Al Meshaf, Al Wakra, near Lulu Hypermarket recently, with an aim to offer authentic Pakistani dishes at affordable rates.

“We opened the restaurant with an aim to offer authentic Pakistani cuisine. Our concept was to introduce unique flavours from different parts of Pakistan in a semi fine dine environment. We endeavoured to provide food with rich and exotic flavours in a very economical way while keeping high standards of hospitality and customer care. The well balanced menu was designed in a way to satisfy the taste buds of people from across the globe,” said restaurant owner Sardar Hassan Raza.

The restaurant’s signature dish is daigi type biryani (pure taste of Karachi) while the other specialties include Mutton/Chicken Karahi (pure Lahori style), Nihari, Haleem and Paya, said Hassan.

The outlet’s menu covers a wide variety of distinctive curries, barbeque and rice items with varied spice levels. The curries include a large selection of chicken and lamb items, which are exclusive in the town. All the dishes are diligently prepared by experienced chefs and cooks and freshly served with oven hot naan or roti. “We use fresh chicken and meat having green stamp, a proof that the animals have been slaughtered in Qatar. We also use fresh vegetables and best quality spices,” said Hassan.

“We have experienced chefs from Karachi, Gujranwala and Peshawar to prepare dishes to suit every palate. We have a tandur specialist who prepares Roghni Naan, Plain Naan, Tandoori Roti, Plain Paratha, Ali Paratha, Quater Naan and Quera Naan,” added Hassan.

“Our door is open to people of all tastes and we have acquired a shop adjacent to our restaurant to make separate seating arrangements for families. Renovation work will completed in a month time,” said Hassan.

Special breakfast is served daily from 7.30am to 11.30am. Free home delivery services are available in Al Wakra and Ezdan area.

Delivery to Doha is also available for bulk orders. The restaurant prepares special meals on order for all types of gatherings, parties and functions.

Please call GSM: 33330618 or 70567272 for further details.
